The FY 2026 budget includes appropriation authority for a time of service adjustment plan for full-time state employees. This would provide a 1% salary increase for every two years of continuous state service and would cap out at 10% for 20 years of service. This excludes job classes with statutorily-set salaries, the Departments of Transportation and Conservation, and certain job classes within the Missouri State Highway Patrol, who have existing time of service pay structures. State employees working in 24/7 facilities that already have this time of service pay plan will get a one percent cost of living adjustment.

SCR 7, which was passed during the 2023 legislative session, creates the America 250 Missouri Commission. The Commission's principal purpose is to plan, promote, and implement public celebrations and commemorations of the 250th Anniversary of the Declaration of Independence and the 250th Anniversary of the United States of America. 2026 marks the 250th anniversary of our nation's founding.														
To observe this momentous occasion, the U.S. Semiquincentennial Commission was created to encourage Americans to remember our past, celebrate the present, and look forward to a promising future. The U.S. Semiquincentennial Commission was established by Congress (P.L. 114-196) to inspire Americans to participate in the 250th anniversary of the founding of the United States. The Commission is partnering with public and private entities across the country to make America250 a once-in-a-lifetime experience for all Americans with the goal of orchestrating the largest and most inclusive anniversary observance in our nation's history.

Electronic Monitoring Pilot
Section 5.010

Page 34

For a statewide electronic monitoring pilot program. The program’s objective is to monitor individuals subject to pre-conviction or post-conviction through a check-in system that the supervising agency or circuit can access through a secure web-based platform. The program should also establish exclusion zones and compliance levels through the platform and generate reports with relevant information for individuals monitored through an industry standard end to end encryption and redundant back-up data.

This new request is for staff to support the MOVERS statewide accounting Finance/HR system after implementation. Unlike our previous accounting system, will be receiving quarterly updates of functionality. We must regression test the system before each upgrade to ensure continued functionality. We need to also test and implement the new functionality and maintain the security and workflows of the system. After implementation, OA will also need to set up a help desk to support users in the new system. The new MOVERS system has the potential to increase the efficiency of the administrative functions however, there is a significant administrative workload to maintain user access, efficient workflows, and system settings.

The FY 2026 budget includes appropriation authority for a time of service adjustment plan for full-time state employees. This would provide a 1% salary increase for every two years of continuous state service and would cap out at 10% for 20 years of service. This excludes job classes with statutorily-set salaries, the Departments of Transportation and Conservation, and certain job classes within the Missouri State Highway Patrol, who have existing time of service pay structures. State employees working in 24/7 facilities that already have this time of service pay plan will get a one percent cost of living adjustment.

OFFICE OF ADMINISTRATION

Division of Budget and Planning
Operating
Section 5.020

Page 59

The Division of Budget and Planning provides technical assistance to agencies in preparing budgets, including the review and preparation of the annual Executive Budget and administration of the budget control system. The division conducts ongoing analyses of agency programs including proposed state and federal legislation; provides assistance and coordination in matters relating to executive branch agencies; and administers the state and local review system for federal funding. The division also provides technical and management assistance to the Governor's office and state departments on matters of administration and procedures.

What's Going On?: Without critical state/national economic data, and information regarding budgeting best practices, Budget and Planning cannot successfully fulfill its role in helping to build and implement a constitutionally balanced budget.														
What Is The Problem?: A variety of private vendors and national associations provide this data. Regrettably, the cost of such information has risen significantly in the last ten years. From FY13 to FY23, the cost to access such budget and economic data rose 42%.														
Additionally, the costs of assembling budget books for General Assembly hearings have increased both generally and in the sheer numbers of pages printed due to an influx of new funds in recent years.														
Where B&P Is Now: Unfortunately, Budget and Planning's appropriation to pay for the above costs is actually smaller in FY25 (\$71,913) than in FY09 (\$85,935). While B&P has successfully managed within its budget to cover these costs over the past 14 plus years, costs have risen to where B&P has to rely on unpredictable staff vacancies to cover both these and general division operating costs.														
B&P's Request: B&P seeks funds to cover post FY13 cost escalations as well as anticipated increases.

Division of Budget and Planning
Census Preparation and Support
Section 5.020

Page 70

Section 37.130 RSMo provides that the demographic unit in the Office of Administration “shall provide requested assistance in all reapportionment matter”. The United States census occurs April 1, 2020. Missouri needs to prepare census, geographic, ad election databases for reapportionment efforts following the census. This core provides temporary staff and resources to support reapportionment activities including software and equipment purchases, training, data compilations, setting up a redistricting office, creating and maintaining a website for public use, coordinating public meetings and travel, filing draft and final plans with the Secretary of State, making maps of new districts available to elected officials, and providing data and support in the event of legal challenges.

OFFICE OF ADMINISTRATION

IT Inter-Department Consolidated Core
Section 5.025

Page 75

Per Executive Order 05-07, the management of State Information Technology resources was consolidated under the Office of Administration in FY06. Consolidation places IT resources under the direct control of the State’s Chief Information Officer, who will assess the IT staffing and equipment requirements, which should result in a more coordinated use of IT resources. This section contains the operating funds for each of the division’s sections including Infrastructure, Operations, and Administration. In addition, this section includes funding for information technology services provided to the 14 departments included in the consolidation.

Legal Base: Chapter 37.005 RSMo

This request is for ongoing funding related to the Digital Government Transformation project funded by ARPA. The vision for Digital Government Transformation is to provide a world-class experience for both citizens and businesses who interact with the State of Missouri and provide best in class cyber security to support that experience. To accomplish this vision, ITSD is partnering with agencies to innovate the user experiences and optimize workflows through journey modernization using a unified online portal and leveraging strategic enterprise tools within the IT infrastructure. ITSD is also adding additional security layers to protect citizen data and identity. ITSD has had great success creating and implementing a strategy based on a unified platform. This strategy has helped create cost effective solutions for Agencies with much greater speed and effectiveness. Having common solution platforms for Agencies also improves consistency and reduces build time, support, and maintenance complexity. Expanding the use of these tools across Agencies will further improve efficiency, decrease overall costs across the state, and provide a better experience for citizens and businesses while maintaining the highest level of security. The tools put into place to support this secured, unified platform strategy have annual subscription costs that ITSD must pay or all the systems will have to be shut down. ARPA was used for the initial implementation; now ongoing costs need to be supported. The State of Missouri has implemented a lot of new technology and enhanced customer and citizen experience over the last several years. The introduction of new technology and higher expectation of seamless user experience is introducing a greater need for new cyber security tools, training, and support. In FY23, there were 79 FTE transferred from ITSD's core budget to HB20. These FTE need to be added back to ITSD's core budget. FTE are needed to build the skills required for in-house development of new applications on the platforms identified above and build security teams to continuously refine and enforce policy & procedure and lead technical configuration, integration, workflow automation, and auditing efforts. Building the skills in house in far less expensive than outsourcing each of these ongoing efforts. There are additional FTE needed as we transition for older technology to newer because we have to keep the old systems running while simultaneously building the new.

Key Management System - NOP.GV.080

A key management system (KMS) is necessary and forms the basis of all data security. A KMS system manages the keys used to encrypt and secure all data across the organization. Implementation of a KMS system would ensure that keys are stored in centralized location and prevent unauthorized access to the keys that would be used to encrypt and decrypt our sensitive and regulatory data. It allows for administrators to remotely disable keys and issue new ones as needed. A KMS system is necessary to build out key management automation. In order to address regulatory compliance, a KMS system would allow for keys used to authenticate into systems to be rotated out to address compliance rules. The state manages multiple cloud and on-premises data centers today and deployment of a centralized key management system would greatly enhance the security while simplifying management of encryptions keys from a single platform.

The FY 2026 budget includes appropriation authority for a time of service adjustment plan for full-time state employees. This would provide a 1% salary increase for every two years of continuous state service and would cap out at 10% for 20 years of service. This excludes job classes with statutorily-set salaries, the Departments of Transportation and Conservation, and certain job classes within the Missouri State Highway Patrol, who have existing time of service pay structures. State employees working in 24/7 facilities that already have this time of service pay plan will get a one percent cost of living adjustment.

One time funding was originally approved in FY23 for a statewide citizen engagement program. One-time funding was added again in FY25 to continue operating the SHARE MO Citizen Engagement Program. The SHARE MO program is currently in fourteen (14) of our seventeen (17) executive agencies and some elected officials' offices. This provides these agencies with ways to listen to citizens, understand their experiences, and make changes based on feedback. Without continued funding, this program will cease to exist and all progress that has been made will be lost.

The Department of Elementary and Secondary Education (DESE) is responsible for the statewide distribution of over \$5 billion in state funds to Missouri's 560 public school districts and charter schools statewide. The DESE Foundation Formula calculation system was written in 2006 and is used to calculate the payment of these funds. This system calculates five separate statutorily required payments which are the Foundation Formula State Aid (163.031, 160.415, 162.1060, 162.935, 163.071, and 163.073 RSMo), Classroom Trust Fund (163.043, RSMo), Transportation State Aid (163.031, RSMo), Small Schools (163.044, RSMo), and the Proposition C (144.701, RSMo). This system calculates the annualized and monthly payment amounts owed to each district and charter school as well as charter sponsors for the five types of State Aid payments. The monthly payment amounts are then pulled into the DESE Payment Management System (PM) to interface with the SAM II system to make monthly payments to the districts and charter schools.

These five payment calculations are all unique to Missouri per statute. There are more than 41 different processes that must be completed in order to calculate payments each month. Each computation process is comprised of thousands of calculations involving a large amount of unique data elements that are pulled from 4 different DESE systems in order to perform the correct calculations. The School Finance System stores hundreds of calculation components in over 49 different tables for the 560 public school districts and charter schools plus 7 charter sponsors.

The DESE Foundation Formula calculation system currently lacks an intuitive design and requires heavy involvement from OA-ITSD to make basic routine edits as well as extensive manual data verification. The legacy system has met its limitations and the complexity to support or enhance causes delays in functionality and the capability to maintain. Additionally, it is very expensive to make modifications to this old system as changes are required or new legislation is passed each year. Few state employees know enough about the complexity of this system to address changes and ensure that said changes do not cause other, unintended consequences. Without this system rewrite, the state is at risk of being unable to accurately distribute over \$5 billion taxpayers' dollars statewide to the 560 school districts which would impact 898,095 pre-kindergarten through 12th grade students.

This project will ensure that the new system contains necessary override screens, comment storage, and components to provide proper automated data verification. It will also make the system responsive, user-friendly, updated technologically, and more secure. The rewrite would provide business owners the functionality to maintain easily, automate data verification, and provide the capabilities for annual updates resulting in future cost savings by alleviating the need for OA-ITSD resources.

The FY 2026 budget includes appropriation authority for a time of service adjustment plan for full-time state employees. This would provide a 1% salary increase for every two years of continuous state service and would cap out at 10% for 20 years of service. This excludes job classes with statutorily-set salaries, the Departments of Transportation and Conservation, and certain job classes within the Missouri State Highway Patrol, who have existing time of service pay structures. State employees working in 24/7 facilities that already have this time of service pay plan will get a one percent cost of living adjustment.

Department of Higher Education and Workforce Development (DHEWD) system for administering state student financial aid (Financial Assistance for Missouri Undergraduate Students or FAMOUS) is outdated and needs modernization. It has been more than a decade since it was last upgraded, and the java-based technology it was built on has become cumbersome. DHEWD has experienced issues finding developers with adequate experience and skills for that technology. In addition to technology issues, the delivery of postsecondary education has changed dramatically since the system was originally developed and implemented in the early 2000s. Although educational delivery structures, such as non-term-based programming, distance education, and non-credit/short-term credentials, have become mainstream, FAMOUS was built around a traditional 16-week semester. This mismatch creates issues for both students and higher education institutions, as well as challenges for DHEWD staff in administering the current variety of state student assistance programs.

The FY 2026 budget includes appropriation authority for a time of service adjustment plan for full-time state employees. This would provide a 1% salary increase for every two years of continuous state service and would cap out at 10% for 20 years of service. This excludes job classes with statutorily-set salaries, the Departments of Transportation and Conservation, and certain job classes within the Missouri State Highway Patrol, who have existing time of service pay structures. State employees working in 24/7 facilities that already have this time of service pay plan will get a one percent cost of living adjustment.

The Department of Natural Resources currently uses the State Revolving Fund (SRF) system to track financial and project data to report to the U.S. Environmental Protection Agency (EPA) for SRF loan and grant programs. The SRF system is a shadow system that will not interface with the new MOVERS ERP financial system and, therefore, needs to be replaced for continued use and expanded to meet new federal reporting requirements. Through this New Decision Item, the department is requesting the authority to procure services for this project, up to \$2,013,744 currently available in Funds 1649 and 1568 for this purpose. The Clean Water (CW) and Drinking Water (DW) SRF programs operate through a cooperative federal agreement with the U.S. Environmental Protection Agency (EPA) and are managed by the department. The CWSRF is managed in accordance with the Clean Water Act Section 606 and the operation and management of the program is directed by state regulations 10 CSR 20-4.040, 10 CSR 20-4.041, and 10 CSR 20-4.050. The DWSRF is managed in accordance with the Safe Drinking Water Act and the operation and management of the program is directed by state regulations 10 CSR 60-13.020 through 10 CSR 60-13.030. The SRF software is an accounting and project tracking software used by the department for a variety of small water pass through programs as well as the Drinking Water and Clean Water State Revolving Funds, which have a combined \$1.9 billion net position. A new SRF system is needed not only to allow the system to function with MOVERS ERP but also to allow for more efficient processes and updated tracking and reporting, which EPA now requires. Every state has a SRF and several companies have developed customizable off the shelf systems to meet their specialized needs. The newer systems are more efficient, easier to use and automate many tasks now handled outside the system manually by the team, including cash flow modeling. The current SRF system was developed 25 years ago. The system performs the basic functions it was designed to do but requires frequent maintenance by OA-ITSD application development to continue operating. It also lacks the advanced functionality currently available from applications serving other state SRF programs. Adoption of a modern system with automation features used by other states would eliminate a significant number of financial processes now handled manually outside the system with considerable efficiency gains. A modern system would allow centralized project management for more than 300 projects currently managed outside the system by team members using various tools that offer little transparency to customers or colleagues. Further, a new system can interface with federal systems the state must report through, saving the team significant double data entry time. Without the updated SRF system, essential water infrastructure projects will go unfunded or will be unduly delayed. Delays in reimbursing a community for incurred costs would be detrimental by causing a financial hardship to not only the community borrower, but also to the engineers and contractors working on these projects. Results would likely include work stoppage, contract disputes, and payroll disruptions. Without the update, the current system will cease to function with the switch to MOVERS ERP. The SRF system timeline includes a Go Live in January 2026, six months after the MOVERS financial Go Live in July of 2025. The department and OA intend to work together to develop an interim solution to continue to work with our existing system after MOVERS goes live until the new SRF system is ready.

The FY 2026 budget includes appropriation authority for a time of service adjustment plan for full-time state employees. This would provide a 1% salary increase for every two years of continuous state service and would cap out at 10% for 20 years of service. This excludes job classes with statutorily-set salaries, the Departments of Transportation and Conservation, and certain job classes within the Missouri State Highway Patrol, who have existing time of service pay structures. State employees working in 24/7 facilities that already have this time of service pay plan will get a one percent cost of living adjustment.

This funding provides ongoing licensing and support for Professional Registration's new e-licensing system, MOPRO. This system was implemented with ARPA funds and will be paid for through the Professional Registration Fees fund (1689). The fund needs appropriation authority to make the payments. The new system will empower applicants and licensees to have more control over their own future by vastly improving access to their application status and the ability to enter their own data into the system. This project enables licensees to have access to their data 24/7/365 days a year, allowing them to obtain and renew their license faster and get them into the workforce sooner. This project supports one of Governor Parson's top priorities of workforce development to meet the needs of the future.

The FY 2026 budget includes appropriation authority for a time of service adjustment plan for full-time state employees. This would provide a 1% salary increase for every two years of continuous state service and would cap out at 10% for 20 years of service. This excludes job classes with statutorily-set salaries, the Departments of Transportation and Conservation, and certain job classes within the Missouri State Highway Patrol, who have existing time of service pay structures. State employees working in 24/7 facilities that already have this time of service pay plan will get a one percent cost of living adjustment.

Missouri Veterans Commission (MVC) runs seven skilled Veterans Homes which are required under 38 CFR 51.200(f) to “have and maintain a resident call system. The nurse’s station must be equipped to receive resident calls through a communication system from resident rooms and toilet and bathing facilities.” MVC’s current nurse call systems are approaching or have surpassed their full life cycle and need replaced. Some system parts are no longer available to purchase in order to fix/replace broken components. This is leading to several cases of documented malfunctioning.

The current Electronic Health Records tool contract expires in September 2026. MVC must re-bid the Electronic Health Record system to continue to provide and manage high-quality care to Missouri’s Veterans while decreasing costs and inefficiencies. The product should be cloud-based and have emergency backup servers. MVC reviewed options among State Veterans Homes across the nation and received business needs as well as possible vendor options for use within their skilled nursing settings. Many of the provided vendors are also utilized in private nursing homes in Missouri.														
MVC anticipates rebidding and awarding the vendor through the Request for Proposal (RFP) process. The solution MVC will acquire is a commercial off-the-shelf (COTS) product designed for the skilled nursing care sector.

The FY 2026 budget includes appropriation authority for a time of service adjustment plan for full-time state employees. This would provide a 1% salary increase for every two years of continuous state service and would cap out at 10% for 20 years of service. This excludes job classes with statutorily-set salaries, the Departments of Transportation and Conservation, and certain job classes within the Missouri State Highway Patrol, who have existing time of service pay structures. State employees working in 24/7 facilities that already have this time of service pay plan will get a one percent cost of living adjustment.

The FY 2026 budget includes appropriation authority for a time of service adjustment plan for full-time state employees. This would provide a 1% salary increase for every two years of continuous state service and would cap out at 10% for 20 years of service. This excludes job classes with statutorily-set salaries, the Departments of Transportation and Conservation, and certain job classes within the Missouri State Highway Patrol, who have existing time of service pay structures. State employees working in 24/7 facilities that already have this time of service pay plan will get a one percent cost of living adjustment.

The FY 2026 budget includes appropriation authority for a time of service adjustment plan for full-time state employees. This would provide a 1% salary increase for every two years of continuous state service and would cap out at 10% for 20 years of service. This excludes job classes with statutorily-set salaries, the Departments of Transportation and Conservation, and certain job classes within the Missouri State Highway Patrol, who have existing time of service pay structures. State employees working in 24/7 facilities that already have this time of service pay plan will get a one percent cost of living adjustment.

The Mansion Donation appropriation provides authority to spend donated funds in support of maintenance, renovations, and operation at the Missouri Governor's Mansion and grounds. In the last ten (10) years, the amount that has been donated has increased to over \$450,000. During this same time frame as expenditures have been made from the appropriation, the amount available continues to increase. As of the end of FY 2024, the available amount is \$183,776. If no additional funds were deposited, it would take over four (4) years to fully expend the available balance. This new decision item proposes to raise the appropriation authority to \$120,000 from the current \$60,000. Additional appropriation authority is necessary to allow the cash in the fund to be utilized to support the Governor's Mansion.

The Department of Social Services Division of Family Support (DSS FSD) in conjunction with the Office of Administration Facilities Management, Design and Construction (OA FMDC) requests this funding for new space needs for a corresponding NDI in the FY26 DSS budget that is requesting 220 FTE.														
The Department of Social Services, Family Support Division (FSD), is in need of additional FTE to support the delivery of timely and accurate benefits to Missouri citizens due to increased caseloads. Staff are crossed-trained to process applications, renewals and support the in-house call center for all benefit programs administered by FSD so that staff can be utilized to full capacity. In addition, FSD also operates 129 Resource Centers statewide, with a presence in all 114 counties and the City of St. Louis, which allows individuals the opportunity to be served face-to face. The additional staff are needed to ensure that the agency is compliant with federal and state requirements for timely processing and accuracy rates and maintains a reasonable wait time in the call centers and Resource Centers ensuring Missourians are being provided timely services and the agency avoids federal penalties or other costly legal actions.

In FY 2024, the State purchased two warehouses in Jefferson City, 4720 Scruggs Station Road and 1535 Fairgrounds Road. The warehouses have a combined square footage of over 350,000 square feet and are located in close proximity to each other. In order to run efficiently, this warehouse complex needs FTE to manage the day-to-day activities of shipping and receiving, coordinating with other state agencies and maintaining the warehouses and the grounds.

On March 11, 2021, the American Rescue Plan Act (ARPA) was signed into law. In the FY 2023 budget, one of the ARPA projects included in House Bill 3020, Section 135 & Section 610 was for the design and construction of a multi-agency laboratory campus. The construction on the new multi-lab building has begun. FMDC is in need of one (1.00) Specialized Trades Manager to oversee the current Health Lab and monitor the new lab construction as it moves to completion. The position will manage FMDC staff at the new Lab Campus and the existing Health Lab. In addition, we are requesting two (2.00) Specialized Trades Workers. These positions, if approved, would bring the FTE count for this project to six (6.00). There were three (3.00) positions approved in the FY 2024 budget. Upon completion, the building will require a total of six (6.00) FTE.

The MO State Highway Patrol uses towers across the state for communications purposes. These tower leases are paid for through contracts with landowners. In FY 2025, there are seven leases that have large increases that are on property owned by Ameren. In order to cover the additional costs associated with these tower leases, FMDC is requesting additional funding.

Missouri is experiencing an acute shortage of appropriate mental health residential and in-patient placements. Currently, over 200 individuals with behavioral health needs and 600 individuals with intellectual or developmental disabilities (IDD) are unable to access appropriate placement in these settings. Many of these individuals are currently awaiting placement during long and inappropriate stays in settings such as hospitals, jails, shelters, and private providers at a mis-matched level of care, often at a higher cost.														
Despite available Medicaid waiver slots for individuals with IDD, these individuals are not able to access care due to direct care staffing shortages. The acute shortage of placements is creating a strain on other systems, particularly hospitals, jails and shelters. As individuals await appropriate services, often their untreated/under treated behaviors escalate resulting in additional crises which further reduces placement options.														
One of the strategies DMH is taking to address the acute shortage of space is through reconceptualization of current space resources. DD is proposing to relocate Regional Office staff and Northwest Community Services (NWCS) staff, currently located on the campus of existing Habilitation Centers. This will allow for reconfiguration of the existing space to maximize underutilized placement capacity.														
Proposed move includes the relocation of Northwest Community Services (NWCS) staff from the Providence Building, currently on the campus of Higginsville Habilitation Center (HHC), to the local community.														
The request was granted in the FY 2024 budget and two of the three locations that needed this funding, Poplar Bluff and Sikeston, have been able to find suitable accommodations. Higginsville was not able to find a location that worked for the staff and clients, so the one-time funding lapsed. They are requesting a reappropriation of the one-time funding in order to modify the space. The cost of the monthly rent and utilities for this location is already in the HB 13 budget. The one-time funding need is \$1,236,000. There is a corresponding NDI in HB 13.

The Department of Social Services Division of Youth Services (DSS DYS) in conjunction with the Office of Administration Facilities Management, Design and Construction (OA FMDC) requests this funding to allow for relocation of FTE from an office building in the St. Louis area. Originally, the Met Center space was donated to DSS DYS by St. Louis County and DYS was able to utilize the space at zero cost. Recently the building sold and the new owner is requesting rent from DYS, however, there is no funding in HB 13 for this location due to the previous circumstances. Corresponding NDI in HB 13

The FY 2026 budget includes appropriation authority for a time of service adjustment plan for full-time state employees. This would provide a 1% salary increase for every two years of continuous state service and would cap out at 10% for 20 years of service. This excludes job classes with statutorily-set salaries, the Departments of Transportation and Conservation, and certain job classes within the Missouri State Highway Patrol, who have existing time of service pay structures. State employees working in 24/7 facilities that already have this time of service pay plan will get a one percent cost of living adjustment.

OFFICE OF ADMINISTRATION

Division of General Services
Operating
Section 5.100

Page 315

The Division of General Services provides the Office of Administration and all state agencies with a variety of central government functions. State Printing offers reproduction services including design, printing, finishing, and quick copy services. Mail Services advises agencies on mailing practices, provides mailing services to the Office of Administration and conducts interagency delivery of mail within the Jefferson City area. Risk Management administers the Legal Expense Fund and the workers’ compensation program for state employees, purchases insurance when appropriate, and monitors policies and claims. This section also coordinates the Statewide Safety Steering Committee and advises state agencies on risk management issues. Vehicle Maintenance operates a centralized maintenance facility to provide mechanical repairs and body shop services for state vehicles based in the Mid-Missouri area. Fleet Management establishes statewide policies governing state vehicle operations and management; coordinates a centralized fleet information system and serves as a resource for fleet management issues.

Legal Base: Section 34.170 (State Printing), 37.120 (Mail Services) 105.711, 105.810, Chapter 287, 537.600 (Risk Management), 37.450 (Fleet Management) RSMo

The FY 2026 budget includes appropriation authority for a time of service adjustment plan for full-time state employees. This would provide a 1% salary increase for every two years of continuous state service and would cap out at 10% for 20 years of service. This excludes job classes with statutorily-set salaries, the Departments of Transportation and Conservation, and certain job classes within the Missouri State Highway Patrol, who have existing time of service pay structures. State employees working in 24/7 facilities that already have this time of service pay plan will get a one percent cost of living adjustment.

Surplus Property Recycling Proceeds and Transfer
Section 5.120 & 5.125

Page 338 and 343

This appropriation facilitates the transfer of excess funds from the recycling program to the Department of Social Services (DSS) to be used by DSS for the heating assistance program. Proceeds from the sale of recycled materials may be used to offset costs of the recycling program, and any moneys in excess of costs incurred are transferred to DSS.

State Surplus Property helps state agencies dispose of excess state property through the use of various disposal methods such as: online public auctions, redistribution to other state agencies or recycling. Per statute, the moneys received by the state from the sale of surplus property shall be deposited to the Missouri State Surplus Property Clearing Fund. Then, the Missouri State Agency for Surplus Property Program (MOSASP) distributes all funds received in excess of the costs of the sale to the fund which purchased the item sold. Distribution of funds received is restricted to \$3,000,000 in a fiscal year up to the budget authority for the Surplus Property Sale Transfer – 0710 in some fiscal years delaying the process for MOSASP to transfer and for agencies to receive the proceeds from the sale.

Over the past three fiscal years, the appropriation had substantial and systemic decrease in available lapse due to increased cost of raw materials, demand for services, and utilization of vehicle sale proceeds credits and insurance recovery funds. OA Document Solutions and State Fleet Management use the revolving fund appropriation to purchase inventory (e.g. paper, parts, fuel, and postage) and obtain outside services to provide products and services to state agencies (e.g. printing, mail services, vehicle maintenance and repair). The appropriation is used to purchase goods or services that are rebilled to state agencies, including the cost of vehicles, and supporting expenses for the Jefferson City based motor pool (OA Carpool). The amount of raw materials acquired is directly dependent on the level of demand by agencies. The increased cost of raw materials used in the production of final goods and services to state agencies increased the rebillable expenses. Postage purchased to provide mailing services to agencies makes up for 65% of the rebillable expenses and effective July 14th, 2024, the United States Postal Service (USPS) has implemented an approximately 7.8% increase in postage. Also, under section 37.452, RSMo, agencies are authorized to use credits from the sale of surplus vehicles toward the purchase of new vehicles through this appropriation as well as to use this appropriation to replace or repair vehicles damaged through the fault of a third party to the extent recovery is made from the third party or their insurer. Vehicle credits available to agencies accumulated over the past three fiscal years due to high used vehicle values driven by the vehicle inventory shortages. Beginning of the fiscal year 2025, agencies increased their vehicle orders utilizing vehicle credits and insurance recovery towards vehicle purchases, which will decrease available lapse if not exceed the available appropriation. This request is for rebillable E&E increases to allow sufficient appropriation authority to purchase required raw materials to provide essential services to agencies for continued operations.														
Total - Rebillable Expenses	\$15,480,000	0.00	\$17,250,000	0.00	\$18,250,000	0.00	\$18,250,000	0.00	\$18,250,000	0.00	\$18,250,000	0.00	\$18,250,000	0.00

The FY 2026 budget includes appropriation authority for a time of service adjustment plan for full-time state employees. This would provide a 1% salary increase for every two years of continuous state service and would cap out at 10% for 20 years of service. This excludes job classes with statutorily-set salaries, the Departments of Transportation and Conservation, and certain job classes within the Missouri State Highway Patrol, who have existing time of service pay structures. State employees working in 24/7 facilities that already have this time of service pay plan will get a one percent cost of living adjustment.

OFFICE OF ADMINISTRATION

Children's Trust Fund
Section 5.170

Page 396

The Children’s Trust Fund awards community based grants and conducts public education campaigns to prevent child abuse in Missouri. Funded grants to local governmental agencies, hospitals, schools, Not-for-Profit and faith-based organizations support such projects as mentoring for teen parents, grandparent support projects, fatherhood initiatives, home visitation, parent education and parental nurturing. Projects that result in positive outcomes for families are promoted to other communities for replication.

The Children's Trust Fund (CTF) is in negotiations with MO HealthNet and the state's three managed care organizations (MCOs) to create an all-plan "In Lieu of Services" to provide evidence-based home visiting services to pregnant and postpartum women and their children. An "In Lieu of Services" is an alternative service or setting that is a medically appropriate and cost-effective substitute for a covered service or setting under the Medicaid State Plan. CTF states home visiting services and models have strong evidence that they improve maternal, infant and child health, safety and well-being.

The FY 2026 budget includes appropriation authority for a time of service adjustment plan for full-time state employees. This would provide a 1% salary increase for every two years of continuous state service and would cap out at 10% for 20 years of service. This excludes job classes with statutorily-set salaries, the Departments of Transportation and Conservation, and certain job classes within the Missouri State Highway Patrol, who have existing time of service pay structures. State employees working in 24/7 facilities that already have this time of service pay plan will get a one percent cost of living adjustment.

OFFICE OF ADMINISTRATION

Governor’s Council on Disability
Section 5.175

Page 427

The Governor’s Council on Disability provides leadership to persons with disabilities and state government through technical assistance and referral, presentations, advising state and local government on policies and practices which allow for persons with disabilities to lead independent lives, advising the employment community on hiring practices of persons with disabilities, and working with the Missouri General Assembly on disability-related legislation.

The FY 2026 budget includes appropriation authority for a time of service adjustment plan for full-time state employees. This would provide a 1% salary increase for every two years of continuous state service and would cap out at 10% for 20 years of service. This excludes job classes with statutorily-set salaries, the Departments of Transportation and Conservation, and certain job classes within the Missouri State Highway Patrol, who have existing time of service pay structures. State employees working in 24/7 facilities that already have this time of service pay plan will get a one percent cost of living adjustment.

Missouri Public Entity Risk Management Program (MOPERM)
Section 5.180

Page 433

This section provides for comprehensive liability protection and other insurance services to participating political subdivisions. Appropriation is used to pay for staff, expenses, and contract services required by the Missouri Public Entity Risk Management Fund. All funds expended through this appropriation will be fully reimbursed from MOPERM funds.

Over the past ten years, MOPERM has grown at a significant rate and the number of participating public entities has increased from 878 to 1051. As the number of public entity members have increased, the corresponding operational workload has increased, particularly in responsibilities for underwriting and claims. Because of the increase in public entity members and the corresponding operational workload, MOPERM needs one additional full time employee to address business needs. MOPERM also needs PS budget authority to allow flexibility in funding current PS obligations including fluctuations caused by staff turnover and leave pay outs.

The Federal Government requires the state to enter into a Cash Management Improvement Act (CMIA) agreement annually as one of the requirements for accepting federal funds. Each spring, the State pays the US Treasury interest that accrues between the time federal funds are deposited in the State Treasury and the time those funds are paid to the recipients of the federally funded programs. The interest rate charged is published each December. The current best estimate is 4.75%. In FY 2023 the interest rate was 4.23% and the State paid more than \$5.1 million. Since this payment is directly related to interest rates, it is possible this request will need to be adjusted in the future depending on actual interest rates.

OFFICE OF ADMINISTRATION

Budget Reserve (Cash Flow) Loan Transfer
Section 5.265

Page 542

This request provides the mechanism to transfer funds from the Budget Reserve Fund into general revenue or any other state fund for short-term loans pursuant to Section 27(a), Article IV, Constitution of Missouri. This appropriation also allows for transfers from various other funds into general revenue or any other state funds for short-term loans. Transfers from the Budget Reserve Fund are deemed "cash operating transfers." An amount equal to the cash operating transfer received by such fund, together with the interest that would have been earned on such amount, must be transferred back to the Budget Reserve Fund or other fund prior to May sixteenth of the fiscal year in which the transfer was made. No cash operating transfers out of the Budget Reserve Fund may be made after May 15 of any fiscal year. Transfers from other state funds into general revenue or other state fund shall only be transferred from May 15 to June 30 in any fiscal year, and an amount equal to the cash operating transfer received by such fund, together with the interest that would have been earned on such amount, must be transferred back to the other fund prior to June 30 of the fiscal year in which the transfer was made.

OFFICE OF ADMINISTRATION

Fund Corrections
Section 5.285

Page 562

This appropriated transfer mechanism allows the Division of Accounting to correct prior fiscal year revenue transactions that were erroneously deposited into the incorrect fund. After a fiscal year has ended, revenue "correction" documents cannot be processed. This appropriated transfer is requested specifically to allow the transfer from the fund that erroneously received the deposit in a prior fiscal year to the correct fund in the current fiscal year.

OFFICE OF ADMINISTRATION

Central Services Cost Allocation
Section 5.290

Page 567

An accepted accounting practice, allocations recover costs for services provided to other entities. For instance, the federal government allows the State of Missouri to recover overhead costs for federal programs through a Statewide Cost Allocation Plan (SWCAP). Using standard accepted accounting methods, the Central Services Cost Allocation Plan (CSCAP) recovers the costs of providing services to various state funds including those provided by the Office of Administration, the Department of Revenue, the Governor's Office, the Lieutenant Governor's Office, the Secretary of State's Office, the State Auditor's Office, the Attorney General's Office, the General Assembly, and the Capitol Police. To determine a fund's participation eligibility, the Office of Administration systematically analyzes relevant constitutional provisions, statutory language, fund revenue sources, and other appropriate considerations. OFFICE OF ADMINISTRATION

Refund

Flood Control and National Forest Reserve

Section 5.300 & 5.305

Pages 586 and 591

Flood Control Program: The Department of Defense/US Army Corps of Engineers disburses 75% of funds received from lands acquired for Flood Control, Navigation, and Allied Purposes to compensate local taxing units for the loss of taxes from federally acquired lands. Counties receiving the funds expend the money for the benefit of public schools and public roads in the county.

National Forest Reserve Program: This program distributes funding to counties in which National Forests are located. Revenue is received by the federal government for mineral leases, rentals, concessions, and timber from National Forest lands. A quarter of the revenue is returned to the states. The Office of Administration acts as a 'pass-through' agent, distributing the revenue to the counties according to a schedule provided by the U.S. Departments of Agriculture and Interior. Counties receiving the funds expend the money for the benefit of public schools and public roads in the county.

OFFICE OF ADMINISTRATION

Prosecutions/Capital Cases to Counties
Section 5.310

Page 596

Pursuant to Section 50.850, RSMo, the Office of Administration may reimburse counties, out of funds appropriated by the general assembly, for expenses related to the prosecution of crimes occurring within institutions under the supervision and management of the Department of Corrections. Reimbursements are not to exceed 50% of expenses, and the amount of reimbursement may be based on the number of cases referred, filed, or tried.

Pursuant to Section 50.853, RSMo, the Office of Administration may reimburse counties of the third and fourth class, out of funds appropriated by the general assembly, for expenses related to the trial of capital cases. The reimbursements are not to exceed 50% of actual expenses, and are "limited to counties which were, at the time of the trial, in a negative financial situation."

The reimbursement is \$250 per case.

Pursuant to Section 50.850, RSMo, the Office of Administration may reimburse counties, out of funds appropriated by the general assembly, for expenses related to the prosecution of crimes occurring within institutions under the supervision and management of the Department of Corrections. Reimbursements are not to exceed 50% of expenses, and the amount of reimbursement may be based on the number of cases referred, filed, or tried.														
A new county recently requested reimbursement under this statute. OA does not currently have sufficient appropriation authority to make any additional reimbursements. There is a corresponding supplemental request.

OFFICE OF ADMINISTRATION

Aid to Regional Planning Commissions
Section 5.315

Page 604

Funds appropriated for grants to qualified Regional Planning Commissions are distributed in accordance with statutes. Section 251.034, RSMo states that "Payments made under Sections 251.032 to 251.038 to the various regional planning commissions shall be distributed on a matching basis of one-half state funds for one-half local funds. No local unit shall receive any payment without providing the matching funds required. The state funds so allocated shall not exceed the sum of sixty-five thousand dollars each for the East-West Gateway Coordinating Council and the Mid-America Regional Council. The remaining allocated state funds shall not exceed the sum of twenty-five thousand dollars for each of the following regional planning commissions..." (South Central Ozark, Ozark Foothills, Green Hills, Pioneer Trails, Bootheel, Harry S Truman, Mark Twain, Mo-Kan, Southeast Missouri, Boonslick, Northwest Missouri, Mid-Missouri, Kaysinger Basin, Lake of the Ozarks, Meramec, Northeast Missouri, and Southwest Missouri).
